Join us at the Veneta Transportation System Plan update Open House!

What is a Transportation System Plan?

The Transportation System Plan (TSP) is a long-range document that guides the expansion and operation of our transportation network for all modes of travel over the next 20 years.

This process creates an opportunity to work with residents and businesses to shape the future of the ways people get around in Veneta – including bicycles, sidewalks and trails, transit, cars, and freight trucks.

Get Involved - Tell Us What You Think

Come to the open house and talk about your ideas for how transportation should be improved in Veneta. Key topics being discussed include:

> Transportation goals to work towards over the next 20 years
> Areas where transportation system or service improvements are needed
> Solutions to improve conditions for walking, biking, public transit, driving, and freight movement

For information or to request special accommodations contact:
